Mano-Foam

Hand disinfectant liquid soap

SWISS
MADE

Excellent cleaning and disinfection for hands

Ideal for frequent use and sensitive skin

ADVANTAGES

- Excellent cleaning and disinfection performance, with a broad microbiological spectrum of efficacy.
- Free from alcohol, formaldehyde, phenol, chlorine and metals.
- Fast acting.
- Effectively dissolves dried blood stains and does not stain.
- Gentle on the skin; does not cause irritation.
- Suitable for frequent use, including on sensitive skin.
- MEA (Mouse Embryo Assay) and SSMA (Sperm Survival & Motility Assay) tested.
- VOCs-free.
- Non-flammable.
- Fresh and delicate fragrance.

PRODUCT DESCRIPTION

ICP's alcohol-free hand disinfection solutions are developed with the guarantee of **Swiss quality**. They are gentle on the skin, even with frequent use, making them ideal for the most sensitive skin types – from children to healthcare professionals.

Healthy skin is the foundation of effective protection. That is why our products not only disinfect, but also provide protection without damaging the skin surface or causing dryness or irritation. At ICP, we develop hand hygiene solutions based on prevention, effectiveness, and gentleness – every day, to ensure the highest level of safety.

AREAS OF APPLICATION

Some examples are:

- **Medical care providers:** Hospitals, outpatient clinics, ambulatory centers, emergency rooms, mobile medical units.
- **Dental care providers:** Dental clinics, orthodontic practices, oral surgery centers.
- **Specialized & preventive care:** Care centers, medical practices, physiotherapy and massage centers, podologies.
- **Laboratories & research institutes:** IVF labs, cell labs, laboratory equipment such as: CO₂ incubators, laminar flow hoods, benchtop warmers, multiwell plates, pipettes and holders.
- **Pharma & medical supply chain:** Pharmacies, medicine manufacturing, medical and chemical suppliers.
- **Health Support & Wellness:** First responder services, medical training, beauty and nail salons.

Please note that the availability of products may vary in different countries and regions. Contact your local distributor partner for more information. The recommendations regarding our preparation are based on scientific tests and are given in good faith. More detailed recommendations, e.g. regarding material compatibility or microbiological efficacy are possible, only in separate and individual cases. Our recommendations are not binding and do not constitute a guarantee. They do not preclude a company's own testing for the intended purpose and process. In this respect we cannot accept any liability. This is in accordance with our general condition of sale and supply. Image from Shutterstock.

DIRECTION FOR USE

Use the product undiluted. Dispense 3 ml of MANO-FOAM into your palms and rub thoroughly over all hand surfaces for at least 30 seconds. After the contact time, rinse hands with water. Avoid direct contact with food and beverages. For professional users and the general public. For safe use, always read the label before use. Report any serious incidents related to the product to the manufacturer and the competent authority.

STORAGE

MANO-FOAM hand disinfectant soap must be stored in its original, intact packaging, kept carefully closed after use, in a cool, dry place at a temperature between 15 °C and 30 °C, and protected from direct sunlight.

BIOCIDAL ACTIVE INGREDIENTS

Quaternary ammonium compounds.

MEA AND SSMA TESTED

MANO-FOAM is MEA and SSMA tested.
